

**H.S. Buccaneer S2
Wing Fold Set 1/48 scale**

This Detail set is manufactured from photo - etched brass sheet and is for the Airfix 1/48 scale model kit.

Etched brass should be thoroughly cleaned by gently wiping with a solvent such as White Spirit and primed for painting.

To separate parts, support fret on a firm surface, (i.e., a small sheet of glass or a plain ceramic tile) and cut as near to the part as possible using a sharp blade.

To fold part use Airwaves Folding Tool AM022 for a good and even fold. For fixing parts, use Cyanoacrylate Adhesive (Superglue) or Epoxy resin.

Manufactured for and by:-

E.D. Models, 64 Stratford Road, Shirley,

Solihull, B90 3LP, England.

Telephone (44)- 0121-744-7488 Fax (44)- 0121-733-2591

For further helpful hints to using etched brass and for full details of the extensive Airwaves range, get a copy of the latest Airwaves catalogue.

**General Notes**

1. This photo etched wing fold set is designed to directly replace the Airfix kit parts 36 and 37 with minimal modification to the kit.
2. To facilitate a comfortable fit, remove the protruding hinge cover tabs on kit parts 33 and 34. The assembled photo etched wing fold joint may now be fitted into the wing.

CONTROL LINKAGE ASSEMBLY

Assemble the photo etched control linkage parts as shown above. Fold the wing spreading lock, etched part 5 so that the two halves lock onto each other. Cement into position.

WING FOLD JOINT ASSEMBLY

Assemble wing fold joint as shown. When assembled into wing, the paint finish applied was generally that of the aircraft's underside scheme. Cables and pipes were black or aluminium in colour.
