

This conversion kit is designed to fit the 1/48 Hasegawa F-16D. It is to make the Peace Marble II aircraft fitted with the large avionics spine and enlarged RWR fairings. Also included are the larger diameter main wheels, bulged u/c doors and the MCID (Modular Common Inlet Duct) front engine air intake duct as fitted to all Block 40/42 F-16C/D aircraft. The conversion parts are made from polyurethane resin and pewter and can easily be cleaned up by scraping with a sharp scalpel and wet wet & dry paper. To fix parts use superglue or five minute epoxy. Assemble plastic kit as instructed replacing the kit intake duct with the resin one, fit the pewter enlarged RWR fairings. Remove the bottom fin fairing as shown in diagram, fit resin spine and then the fin. Replace the kit wheels and doors with the conversion parts. Peace Marble II aircraft are finished in standard Israeli F-16 colours. Airwaves are distributed by E.D. Models, 64 Stratford Road, Shirley, Solihull, West Midlands B90 3LP, England. Telephone: 021-744-7488, Fax: 021-733-2591.
